

COMMERCIAL AND MONEY MATTERS.

New York of Weeks, as per Envoy Page.

Moscow, May 1.—T. M.

The Stock market to day was without animation and the foreign news appeared to have no effect whatever.

The rates of goods were very light, and showed no material change. Stock dealers were first and Government securities were in demand for remittance, instead of floating bills.

In the bill market there was but little activity, the rates for Steamer still \$100 for first class name, but there is no business. Some bills not very well known sold at low 7½ per cent.

The freight operations were suspended by the arrival of the steamer, and we had no news of importance. Cotton is commonly \$22 to Liverpool.

The Financial News.—The Docks.—The Committees on Commerce and Schools, report on the disposal of Daggett's land. A report of a head-wind greatly promoted the despatch of the steamer, which went to New York on the 1st instant, and the vessel was soon after released.

After the cessation of some underground business, a Committee was appointed to consider what was best to be done.

—The Mayor, who subsequently reported that that officer had nothing further to communicate to the Board.

On the 1st being dismissed, of Ald. PARKER offered a resolution of thanks to Ald. FRANKLIN, in those words:

“Franklin Morris Franklin, Esq., President of the Board of Aldermen for the official year now about to expire, is entirely entitled to the thanks of the citizens of New York, for his untiring, faithful and disinterested services, which he has so uniformly discharged in the discharge of his office; and while presenting his resignation, as quite as favorable as could have been expected. This was not much charge incurred, for the condition of affairs in Europe is considered as impervious to the last account. The permanence of the Provisional Government under the attempts to overthrow it is considered a highly favorable feature. The French and English funds were improving, showing that our science is being restored, and the difference at Paris between Bank notes and coin was only 1 per cent. In Paris and Havre the feeling among business men was better, and a return of some degree of activity in trade was looked for. Private letters from London speak also of a better feeling and a measurable return, and the same is to be expected in the further movement of the manufacturing districts. There was a steady and regular demand for American securities, and the supply was moderate. Government bonds were selling at 96 New-York, 50-55, Old 7½. Money was very plenty, and at low interest. A letter from an eminent banking house says: ‘Insurrance amounts of money are accumulated here utterly useless for want of safe employment.’

When, varying over the small hours, the One Hundred and Eighty-Second City Council was dissolved.

Board of Assistant Aldermen.—Montauk, May 1.

A President LOWE STEVENS, Esq., in the Chair, in view of COMMUNICATORS OF THE BOARD OF ALDERMEN, and the Committee on Finance of the Assembly, offered an amendment that the Committee should hold to their own organization the fact of FALCON N. R., a person who had been a member of the Board of Aldermen, to convert that at that time to the City. Amendment adopted.

On the unanimous adoption of this, Mr. Franklin responded in a most happy manner:

“The minutes of the last meeting were then read and approved. At which a vote of thanks was tendered to the Clerk and Sergeant-at-Arms for their faithful and diligent discharge of duty.

When, varying over the small hours, the One Hundred and Eighty-Second City Council was dissolved.

Board of Assistant Aldermen.—Montauk, May 1.
